

Have You Been
with **DIAGNOSED**
BREAST CANCER?

Learn about your immune system and help us to investigate breast cancer by participating in a research study at Bastyr University.

We are studying the effects of a Turkey Tail (or Cloud) mushroom supplement (*Trametes versicolor*) on the immune system. To participate:

- You must have been diagnosed with breast cancer (Stage I, II or III), estrogen-negative and progesterone-negative.
- You must have received or be scheduled to receive chemotherapy.
- You must be scheduled to begin radiation therapy.

Free mushroom supplement
\$20 compensation for each clinic visit
